

2350 ULTRACAB WALK-THRU

**DESIGNED TO ELEVATE YOUR
OFFSHORE ADVENTURES TO
NEW HEIGHTS!**

The new 2350 Ultracab™ WT from Stabicraft® is an exciting addition to the 2350 range, built on the same offshore-proven performance hull as the 2350 Supercab. It features unparalleled bow access via an innovative central door, and offers a wide array of cabin and deck accessories resulting in a highly versatile 7m platform that reflects Stabicraft's® commitment to innovation and capability.

STABICRAFT®
ADVENTURE WITH CONFIDENCE

2350 ULTRACAB WALK-THRU

UNMATCHED BOW ACCESS

The 2350 Ultracab™ WT offers unparalleled access to the bow. No other full-cabin trailer boat on the market provides such easy and fluid access to the bow deck while still maintaining a full-volume cabin with a functional V-berth in the forward section—without compromising ergonomics. The door practically disappears when opened, allowing unimpeded, natural-feeling use of the bow deck for loading and unloading cargo or passengers while nosed onto a beach. On hot days, the front door can be opened for ventilation while underway, and passengers can enjoy the additional space that the bow deck provides for fishing, sightseeing, or simply relaxing.

VERSATILE INTERIOR APPOINTMENTS

The 2350 Ultracab™ WT features improved interior appointments with a range of furniture options tailored to different usage needs. The default seating is now blade-style, which frees up ample space for additional cargo. Both front seats can be upgraded to heavy-duty mechanical suspension for enhanced comfort. For those seeking overnighting conveniences, the new folding table with port-side saloon seating sits over a cabinet-style fridge, while the starboard side can be converted into a galley with a sink and freshwater supply over a 12V oven. The sleeper seat box options have also been upgraded, with available fridge and electric oven options. Additionally, a rear-facing storage seat option is available—a modern take on the King/Queen configuration—providing a comfortable spot to watch your lures for action.

TRANSOM OPTIONS GALORE

Customizable Fish Deck Configurations

The 2350 Ultracab™ WT offers an extensive range of fish deck setup options to suit your fishing style, regardless of the species you intend to target. Choose between two rear wall configurations: a fully opening bifold door or a single-door sealed bulkhead. For example, this could allow you to tailor the boat for cold-climate salmon trolling with an aft helm station or for warm-climate fishing with the doors wide open. Additional options include downrigger or electric reel plugs integrated into the coamings, along with the full selection of 2350 transom configurations—as found in the Supercab and Ultra Centrecab—including transom cages.

SPECIFICATIONS

Hull Length	7.17m (23.5ft)
Beam Width	2.55m* (100.3in)*
Boat Height Min/Max	2.55m/2.60m (100.3in/102.5in)

2350 ULTRACAB WALK-THRU

ADVENTURE

Boasts all the essential features for safe and functional boating while allowing you the freedom to customize comfort options to your preference. As an unpainted, entry-level package, it embraces a minimalist approach—making it an ideal choice for a rugged workboat while still offering a practical set of core components. The Adventure package delivers outstanding value, incorporating key features such as a locking front bow access door, dual wipers, a two-rung boarding ladder, fish deck lighting, a blade-style bow rail, a fully welded tread plate floor, and EVA decking on the coaming tops and front deck. There's ample space for stowing cooler bins and maximizing cabin storage for additional gear.

SPORTFISH

The Sportfish package brings together the most sought-after features typically chosen for a 7m+ cabin boat. It builds upon the essentials of the Adventure package, adding extra comfort and functionality for an enhanced on-water experience. Beneath the bow deck, a cleverly designed V-berth extends to full length, offering impressive versatility not offered in any other bow-deck cabin boat of this size. The cabin is lined with EVA foam for added comfort, while fold-down passenger seating accommodates up to four additional adults warm and dry inside the included canvas rear wall. At the helm, Elite bolster seats are mounted on heavy-duty suspension units, ensuring a smooth and comfortable ride when it chops up.

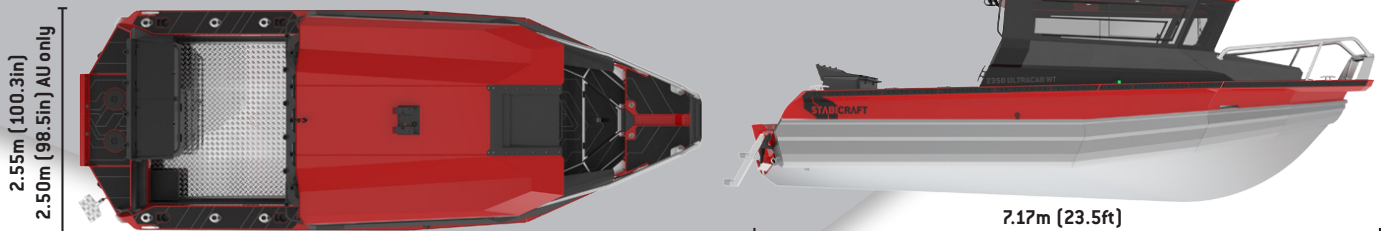

PROFISH

The Profish model incorporates the most sought-after creature comforts. For a quieter ride, the life-ring is equipped with closed-cell baffling to minimize noise. The fully welded floor is appointed with 6mm EVA decking, available in four color options, providing both softness underfoot and thermal insulation. At the transom, two blue underwater lights bring the fish to the surface, while complimentary blue-toned courtesy lights are discreetly placed within the coaming pockets and front deck for enhanced ambience. The audio system receives a significant upgrade with the premium Fusion RA670 stereo, accompanied by four high-quality speakers. Powder-coated bow rail and handrails to match the cabin.
